PD, MSQAA, Hyderabad
All Field Establishments

**INSTALLATION/ SERVICEABILITY OF LOCAL AREA NETWORK (LAN)
AT FIELD ESTABLISHMENTS/ DETACHMENTS**

Government is encouraging e-Governance. E-Governance is the *transformation* of government to provide Efficient, Convenient & Transparent services to the *citizens & businesses* through Information & Communication Technologies. To implement the e-governance and meet the modern day challenges, it is essential to provide the basic infrastructure, so that the services can be delivered timely with accuracy.

2. With the fast changing world due to rapid technological innovations, it is needed to facilitate our personnel/ employees in terms of information and resources. Inter-connecting Computers and its peripherals for Communication, Information exchange, Trouble-shooting and Resource-Pooling shall be the first and foremost step in this direction.

3. The Field Establishments/ Detachments are spread all over the country in Defence Public Sector Undertakings, Ordnance Factories, DRDO Labs etc. With increased dependence on Computers for day to day office work, interconnection of Computers will save lots of stationary by exchanging correspondence through Computers that are routine in nature and unclassified.

4. With the availability of Local Area Network (LAN), employees can access Utility sections like Admin, Accounts, Security and Library for online information relating to official and personal matters. The client- server environment is to be established under the domain configuration for the better control from the security

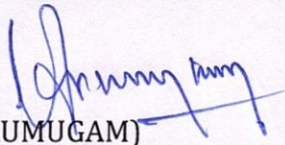

aspects. The configurations and control of operating system, antivirus and essential software on the nodes can be done through the server remotely.

5. It is proposed to connect all the Offices of DGAQA with HQ with the help of eOffice software package developed by NIC. eOffice is being implemented across the Govt. levels of Center, States, Disticts, PSUs. To ensure effective deployment, management and sustainable services, implementation of eOffice at HQ and FEs is planned.

6. In order to achieve the objective as per the directives of DDP, Ministry of Defence, it is mandatory to have the LAN at all the FEs/ Detachments for the onward connectivity with NIC Server and HQ, New Delhi. Following information may please be provided:

Name of FE/ Office	Availability of LAN	Serviceability LAN	No. of Nodes connected/ to be connected	Remarks

7. In view of the above, it is recommended to establish the Local Area Network (LAN) at each FE/ Office and the detachments.

(V ARUMUGAM)
Addl. Director General & CISO
HQ, DGAQA
