

**“ Implementation of TPI policy by HAL (Tejas- Division)
for their sub contractors”**

Utilisation of Third Party Inspection (TPI) services by HAL for its sub-contractor, in respect of military aviation store, is a new area opened-up for private sector as per Policy Document jointly evolved by HAL and DGAQA. This is with an objective to optimize HAL inspection resources, administer inspection function and to develop inspection eco system in private sector for military aviation store. It is a proactive approach adopted by the Government of India aiming that such inspection eco system will be matured along with the Indian Aviation sector under “Make in India” drive.

Five TPI bodies are empanelled by HAL in Feb 2019 for “GSE/GHE, TTGE (Tool, Tester & Ground Equipment) and non-critical aviation stores” after joint assessment by HAL and DGAQA

HAL (LCA-Tejas Division) Bengaluru has placed the contract on following two TPI agencies for inspection services at their sub-contractor for non-critical machined components. DGAQA will oversee the performance of TPI and approved their inspector to perform the inspection activities under defined scope of approval.
